

The National Honor Society is hosting a drive at BHS for the Viking Care Center and the Backpack Buddies program which serve children district-wide. We have learned that there is a great need for non-perishable food, laundry supplies, and body care items. We are asking students and staff to donate the listed items to ensure that the needs of those served by these programs are met.

First hour classes will be competing against each other. AM BACC students will be its own "high school class." Your collection box will be located in Mrs. Belote's office. One junior high and one high school first hour class will win a doughnut party. Winning classes will be determined by the number of points collected.

National Honor Society students will begin collecting the items from each first hour class on Monday, February 25. The drive will run through March 5.
